dear rulemakers,
recently the money service businesses are facing very serious difficulties created by most of the banks, despite all the compliance programs fulfillment no bank is agree to open a new bank account of msb,almost every bank has forcefully closed the bank accounts of msbs.this is very serious challenge to msbs.it is strongly recommended to make some rule that banking service to msbs should not be refused by banks.it is very clear that msb industry can not be survived if some action is not taken some time soon.
truly yours.
